It is our belief that decent, safe and affordable housing for all Americans is an inalienable right and not a privilege. We are proud that numerous affordable housing issues have been addressed and solved through collaborative efforts by the Affordable Housing Conference of Montgomery County, Maryland (AHCMC) and its housing partners over the past 23 years of AHCMC’s existence. However, Montgomery County still needs more affordable housing units especially for low-to-moderate income individuals, families and seniors. We know the current economic environment has been difficult for many and new foreclosures are exacerbating the affordable housing crisis. Yet, we are proud that AHCMC continues to be successful due to the generous financial support of donors in the public, private, corporate and nonprofit sectors of Montgomery County and the surrounding region. Please join us in our efforts. If you can make a donation to help support our 2014 educational, outreach and advocacy efforts contact Susan Krimer, our executive director, at 301.661.3921 or susankrimer@affordablehousingconference.org.

The 2014 Affordable Housing Conference Summit will explore the ways that housing in 2014 has become a key factor in keeping our local, regional and national economy healthy. Changing demographics are altering what we build, where we build and what and how we rebuild. Our panels will look at communities in transition. We’ll hear about areas like White Flint that are creating a new blueprint for suburban development. We’ll also look at ways that our housing can define the future for a growing segment of lower income workers. Are job training, education and counseling finding a place in our redevelopment plans? Should they? Transit-oriented development continues to play a critical role in what residents want – and, among some segments, what they don’t want – in their towns.
